PROFESSIONAL SUMMARY

Versatile engineer combining 3.5+ years of full-stack development (Magento 2, Laravel, PHP, Shopify, WordPress) with roughly 2 years of IT infrastructure experience across LAN/WAN networking, Windows and Linux servers, VMware ESXi, Active Directory, AWS and Azure. Delivered e-commerce platforms for UK, Saudi Arabian and Australian clients (Hyva migration, custom modules, REST/GraphQL APIs, cloud server migration) while also keeping servers, networks, backups and security running reliably.

TECHNICAL SKILLS

Backend	PHP (Core & OOP), Magento 2, Laravel, RESTful APIs, GraphQL, Eloquent ORM, Middleware, SMTP Email Integration
Frontend	HTML5, CSS3, Bootstrap, JavaScript (ES6+), React.js, Vue.js, Node.js, Express.js, Webpack, Hyva Framework, CSS/LESS
eCommerce / CMS	Magento 2 (Custom Modules, Hyva Theme, PDF Generation, Barcode/QR Integration), Shopify, WordPress
Database	MySQL, Query Optimization, Database Design, Data Modeling
Cloud & DevOps	AWS (Server Migration), Microsoft Azure, Cloudways, Git, GitHub, GitLab, Postman, Swagger, Composer
Servers & Virtualization	Windows Server, Ubuntu/Linux (21.04 - 24.04), VMware ESXi, Hyper-V, Active Directory, DNS, DHCP
Networking & Storage	LAN/WAN, Firewalls, Routers, Switches, SAN/NAS, Backups, Disaster Recovery
IT Ops & Security	Endpoint Protection, Vulnerability Scanning, Security Patching, Infrastructure Monitoring, SLA Management, Documentation

WORK EXPERIENCE

IT Infrastructure & System Support | Swift Tech
Mar 2024 - Present

- Supported IT infrastructure operations in a BPO/call center environment.
- Designed, configured and monitored LAN/WAN connectivity, firewalls, routers and switches.
- Installed, patched and maintained Windows/Linux physical and virtual servers.
- Supported Active Directory, DNS and DHCP services for users and infrastructure.
- Deployed and managed virtual machines using VMware ESXi and Hyper-V; worked with AWS and Microsoft Azure environments.
- Configured SAN/NAS storage and performed regular backups and disaster recovery activities.
- Deployed endpoint protection, ran vulnerability scans, applied security policies and resolved escalated infrastructure incidents.

Magento 2 / Laravel Full Stack Developer | Nexus / Banyo Technology
Mar 2024 - Oct 2025

- Led the frontend migration of banyo.co.uk, premierdiy.co.uk and nexus-home.com from Porto to Hyva, improving page speed and Core Web Vitals; fixed module compatibility bugs after migration.
- Built a custom Magento 2 product listing grid showing extended details (specs, descriptions, availability) to improve user experience and conversion.
- Developed a UK postal code-based dynamic shipping calculator that charges by distance from the warehouse; configured multiple delivery methods.
- Deployed and customized third-party Magento 2 extensions to fit business workflows.
- Migrated the full database and Magento 2 application from Cloudways to AWS with zero data loss and minimal downtime.
- Built RESTful and GraphQL APIs; managed Git workflows (branching, pull requests, code reviews) on GitHub/GitLab; worked on Ubuntu 22.04/24.04.

IT Support Engineer | Abacus Consulting
2023 - 2025

- Resolved hardware, software and network issues for 100+ end-users.
- Built and deployed internal Laravel apps: an Attendance Portal and a Ticketing Portal.

- Deployed and configured Ubuntu servers for internal application hosting.
- Performed scheduled backups, security patching and maintenance; implemented access control and security protocols.
- Created IT process documentation and trained staff on new systems.

Full Stack Magento 2 / Laravel Developer | **ASquareTec** **2021 - Mar 2024**

- Built a Magento 2 PDF invoice module for gozaky.sa (auto-generated on order placement) and customized its theme using layout XML, UI components and CSS/LESS.
- Built a camera-based barcode/QR scanner for the-healthy-grocer.com that fetches rack location, stock and image from one scan; added automated SMTP invoice emails.
- Developed a Laravel merchant dashboard for products, promotions, themes and store settings.
- Deployed helafit.com on Shopify and built asquaretec.com on WordPress with custom plugins and branded email templates.
- Managed products, banners and homepage content across multiple client stores.

KEY PROJECTS

- **banyo.co.uk / premierdiy.co.uk / nexus-home.com (Magento 2 + Hyva):** Porto-to-Hyva migration, custom product grid, UK postcode shipping calculator, Cloudways-to-AWS migration.
- **gozaky.sa (Magento 2):** Custom PDF invoice generation module and full theme customization.
- **the-healthy-grocer.com (Magento 2):** Camera-based barcode/QR warehouse scanner and automated SMTP invoice emails.
- **hellyhansen.com (Laravel):** E-commerce site with custom shipping methods, payment methods and extended product page features.
- **helafit.com (Shopify) / asquaretec.com (WordPress):** Custom theme and store setup; company website with custom plugins and branded email templates.
- **Attendance & Ticketing Portals (Laravel):** Internal apps for employee attendance tracking and IT support ticket management.

EDUCATION

- **Bachelor of Science in Computer Science** | National College of Business Administration & Economics | 2022 - 2024
- **Associate Degree in Computer Science (ADPCS)** | The Superior University | 2020 - 2022
